Dunlop Tyres SA

GRANDTREK AT3GM

Dunlop's new 3-ply SUV/4x4 tyre -
a rugged pattern for rugged terrain.

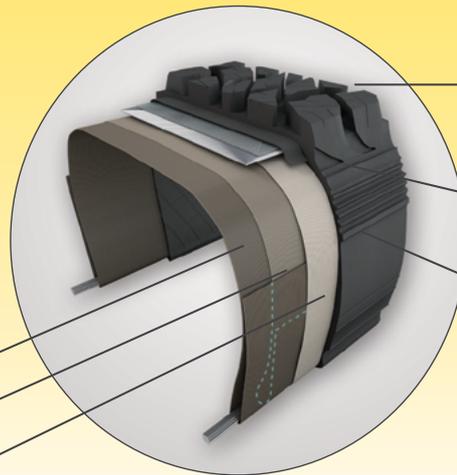

Reinforced 3-ply sidewall & thick shoulder buttress
Inspired by rally designs, helps prevent sidewall damage and penetration while also providing higher load-bearing capabilities (A) & (B).

Staggered design on shoulder

The staggered pattern design extends to the shoulder block to further assist in all terrain grip and penetration prevention, particularly when tyre pressures are lowered in line with terrain requirements (C).

Wide grooves with stone ejectors

The aggressive pattern design with wide grooves ensures better grip on all terrains with stone ejectors to enhance self-cleaning properties and prevent stone-trapping (D).

- (D) Wide grooves with stone ejectors at main shoulder grooves
- (C) Staggered design on shoulder block
- (B) Thick shoulder buttress from rally tyre design

- (A) PLY 1
- PLY 2
- PLY 3
