

# OFF ROAD. ON POINT

Even the great outdoors can't compare to the rugged good looks and on and off-road capabilities of Dunlop's new, AT3G 2-ply White Lettering Tyres.

- Optimised Tread Pattern design for on and off-road capabilities
- Reduced on-road noise levels
- Does not sacrifice ride comfort
- Increased durability and even tread wear promoting mileage
- Enhanced braking performance and stability at high speeds
- Enhanced off-road traction
- Minimised mud and sand build up
- Cut and chip resistance
- Stone ejectors reduce stone trapping and drilling

**GRANDTREK**

 **DUNLOP**  
TAKE THE ROAD

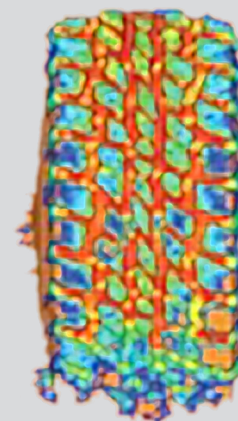

- Four sets of main line grooves and rigid pattern distribution allow for even wear, both on and off-road.
- Irregular grooves increase braking effectiveness and reduce road noise significantly.
- Large shoulder sipes enhance water channeling on-road and improve traction off-road.
- Larger tread blocks assist in traction on any terrain.

- Large block patterns improve impact resistance.
- Strong sidewall profile increases damage resistance both on and off-road.
- Ultra-wide pattern increases mileage in harsh conditions.
- Reinforced steel wire layer structure improves tyre impact resistance.

## Off-road driving showed the following capabilities:

- Cut and chip resistant
- Enhanced off-road traction
- Enhanced braking performance at high speeds
- Tread design minimizes mud and sand build up in the tread region.
