

SP VAN01

THE TYRE THAT GIVES BUSINESSES MORE

Introducing our newest generation of tyres designed especially for vans, and light and medium trucks. SP VAN01 offers superb durability, and safety, combined with excellent mileage in all applications.

PRODUCT FEATURES

- Optimised tyre structure for enhanced durability.
- Excellent wear resistance and safety performance.
- Enhanced wear life, handling stability and wet grip performance.

SP VAN01

MORE DURABILITY

MORE WEAR PERFORMANCE

MORE FUEL-SAVING PERFORMANCE

SIDEWALL PROTECTION

Optimally placed sidewall protection band reinforces the sidewall to provide kerb damage protection, enhanced tyre durability and driving safety in the event of rough roads.

STEEL WIRE STRUCTURE

Strengthened steel wire structure improves tyre rigidity and load-bearing performance, meeting commercial driving needs while ensuring safety.

OPTIMISED TREAD PATTERN

Optimised rib distribution, with large central straight rib, for consistent pressure on entire contact surface area, promoting excellent directional stability and driving dynamics, high grip levels, short braking distances and even wear.

WIDER TREAD PROFILE

The wide and flat tread profile maintains maximum contact area and traction for all surfaces and conditions, promoting even wear.

SUPER ABRASION CARBON

Increased bonding point between carbon and polymer for enhanced wear life, wet grip and handling stability.

MAXIMUM TYRE LIFE AND SAFETY

WITH ALL TYRES
